(1000s) \$200 As a result of the increased number of box lots and the logistics of storing these and delivering them to the auction venue, we have had to simply list them by lot number below. We have NOT sighted the contents as they are being delivered by the respective vendors on the auction day. On the basis all box lots need to be paid for and collected on the day, we rely on the bidder to have viewed these before bidding. The conservative reserves combined with past box lots from such vendors would indicate that they are worth taking the time to peruse. Those box lots with extended descriptions have all been viewed by the describers here at Ace Stamp Auctions & thus can vouch for the contents.
